FUTURE SMART

Certificate of Completion

ΠΑΡΑΣΚΕΥΑΣ ΛΑΖΑΡΑΚΗΣ

has successfully completed the **Artificial Intelligence** course.

This 8-lesson (16 academic hours) online program offered hands-on training in the practical use of artificial intelligence tools. Participants learned how to use ChatGPT effectively, explored Gamma for creating AI-powered presentations, and compared different Large Language Models with ChatGPT to better understand their strengths, limitations, and practical applications. The course also included training in NotebookLM and Heygen, enabling participants to organize information, generate insights, and develop AI-supported educational and professional content.
